

To Patients and All Concerned,

**Kindly asking to the least visit our hospital.**

University of Tsukuba Hospital are strengthening maximum measures against COVID-19, in order to sustain our service and secure local medical care. It is important to give top priority to treat severely ill patients, and make a concerted effort to protect medical personnel and resources.

We greatly appreciate your understanding on the least visit to our hospital for all occasions, such as outpatient consultations, hospitalization and any others for a while.

We believe that your understanding and cooperation, and medical ingenuity and efforts will lead us to the early recovery of our full service.

Your cooperation and understanding on the least visit to our hospital, and preventing from spreading community acquired infection and collapse of the medical system would be highly appreciated.

[Telephone Consultation WEB System](#) is recommended for follow up consultation for appointments.

March 31st, 2020
