

Pick-ups and drop-offs from taxis and nursing care transports

Until now, the drop-off and pick-up points for nursing care transports and taxis at the hospital were located at the front and east entrances of the Keyaki building but, in order to respond to patients promptly and without undue effort, we have created a space exclusively for pick-up and drop-off vehicles in front of the Keyaki building as of August 13, 2013. Therefore, we would like to ask for your cooperation in directing pick-up and drop-off vehicles, such as nursing transports or taxis, to the front entrance of the Keyaki building.
