

面会禁止

Currently, in order to prevent nosocomial transmission of COVID-19, visits to hospitalized patients are prohibited.

However, this does not apply to family members who have been requested by our doctors and nurses to come to the hospital for specific reasons or to family members who have been granted permission to visit based on their medical conditions.

Items necessary for medical treatment, such as a change of clothes, can be picked up at the entrance of the ward between 10:00 and 17:00 on weekdays.

We apologize for any inconvenience this may cause and ask for your understanding and cooperation as part of our measures to prevent hospital-acquired infections.

Akira Hara, Director, Univ. of Tsukuba
Hospital
