

## Notice of Change in Operation of Visiting Cards

We have replaced the lanyard-type visiting card used during visits with a new visiting card sticker. In addition to simplifying the application process, the new system will allow most visitors to return home without stopping by the security guard's office. As a result, families of hospitalized patients will be able to get their card stamped for free parking when they apply for a visit. The after-hours visiting card will be used with the same visiting card strap as before.

**Unless there are special circumstances, we ask that you cooperate with us in visiting only during our hours of operation.**

### Visitor's Card Operation Changes

From July 1, 2018, only the timed visit card will be stickered

	Card Shape	Return Method	Free Parking
Timed Visit	Disposable Seal	Waste Bin	When visiting the hospital
Time-unrestricted visit	Stamp	Return to Security Office	When returning the stamped card

※Visitors may be refused based on individual patient situations.

※The adhesive on the visiting card sticker may remain on clothing.

Please be careful not to use it on fur or sweaters. If you are worried about the adhesive sticking to your clothes, please ask a security guard for a lanyard-type visiting card. Please note that we cannot be responsible for any stains on clothing or other items caused by the stickers.
