

TRAN THI MAI LINH トラン チ マイ リン (フォーライ病院 脳神経外科/2016年8月22日～9月3日)

I feel healthier in Tsukuba city with pure environment and calm. I ride a bicycle every day from dormitory to university under the sound of leaves, trees and insects. In Ho Chi Minh city, I ride a bike and the air is very polluted. 2 weeks in Tsukuba University help me open the latest knowledge in neurosurgery and it's is very meaningful to young neurosurgeon.

Welcome Party by Associate Professor Tanaka and ENT

Endoscopy Group of ENT and
Neurosurgery

Tele-conference with Cho Ray hospital

With all doctors in neurosurgery department

I have impression to White Fish and I have honor to have dinner with Professor Matsumura.
