

Quach Do La (チョーライ病院 泌尿器科医 / 2017年7月18日～28日)

University of Tsukuba hospital is a big hospital, and Urology department has many doctors and residents. They do diagnosis and management of many diseases in urologic system. They also give training to many doctors who come from many countries around the world. After this training I have learned many things: diagnosis and management, technique of robotic surgery.
