4. 奥田 消化器外科 病院講師
5. 倉田 先進消化器外科学 教授
6. 消化器外科の皆様
7. 放射線腫瘍科医師と榮武二教授

Everyone knows that time goes fast and not to come back, I have had chance for two weeks in University of Tsukuba Hospital, it is the first time, I have been here, everything is so strange. From Narita airport coming to Tsukuba made me moved and deep thought about people here, they have helped me a lot, they are very friendly, hospitable, kind. In Tsukuba Hospital, all doctors and others are very kind, enthusiastic to teach me detailed... Although, I have had short time, so I can approach something from you, I studied more about my specialty. I do not know how to thank you, you gave me the belief, patience, support each other with a deep heart. I will take some experience from you to help me patient. Once again, I thank everybody here, especially Professor Matsumura, Professor Akiyama, Professor Ohkochi, Dr. Kurata, Dr. Okuda, staffs in OPIMA and staffs in HBP Dep help me get this chance to learn and visit your country.
