

2021 Biomedical Innovation and Entrepreneurship Training Course for SPARK Asia and Oceania

General Information

Date: February 22nd – March 6th, 2021

Venue: Online via Microsoft Teams & Zoom

Cost: AUD\$700/pp (Prices include GST. Cost of course covers all lectures and tutorials)

Participants: Up to 40 PhD students or PhD's (exceptions are possible, please ask) from Asian and Oceania SPARK associated universities or university hospitals.

EACH SPARK INSTITUTE CAN SEND UP TO 5 PARTICIPANTS

To Participate: Please complete the [application form](#) and send the following information about the participants to Isabella at isabella.hajduk@cimrglobal.com:

- Brief Curriculum Vitae
- Photo of participant

Application closing date: January 15th, 2021

The Goal: Train students to develop skills in design thinking, brainstorming, product development, business skills, and commercialization for unmet medical needs and to become more creative, innovative and savvy in translational research in the Biomedical Sciences. This is taught through lectures, group work and presentations.
