Exit Strategy of Your Research and Entrepreneurship

T-CReDO from University of Tsukuba started “Research Studio powered by SPARK” as a translational research training program since 2018. This time, we will invite international guests from Stanford University, Sydney, and Taiwan from SPARK global. They will introduce us **their efforts in putting research results into practical use in their area**. Also, Dr. Uchida from JOMDD, who is active at the forefront of medical device development in Japan, will give a lecture on **medical device development at startup**. Please feel free to join us.

Date : September 20th (Fri) 2019
13:20-18:00

Venue : University of Tsukuba, Health and Medical
Science Innovation Laboratory 8F

Fee : Free

Language : Mainly in English

Translational Research
